

## Instructions for Back of House (BOH) Prep.

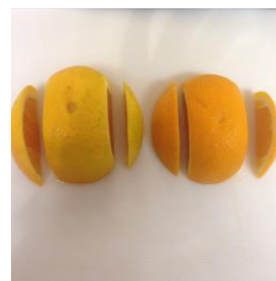

1. Wash hands and put on gloves. Be careful when using a knife.
2. Place orange on cutting board, with the ends facing left and right. Hold orange with gloved hand and slice down the center.
3. Cut off approximately  $\frac{1}{2}$ "–1" of each side of the orange half.
4. Hold trimmed orange half upright and make four cuts dividing it in 5 equal pieces.
5. One orange should produce 10 half orange wheels.
6. Put orange half wheels in a container labeled with a 24– hour day dot and store ambient.
